

Dromex

ACID RESISTANT CONTI SUIT

DW-ACID

Description

Dromex® DW-ACID olive green jacket and pants suit is a strong, light-weight and durable work garment designed to provide the user with protection against acid splashes and mechanical hazards such as abrasion.

The DW-CONTI suit is a blend of 80% polyester and 20% cotton which is an affordable alternative to 100% cotton with the benefits of sturdiness, and colour fastness of polyester and comfort of the cotton.

The fabric construction also features a fluorocarbon finish treatment technology which resists the effects of acid corrosion and also prevents wetting by acids or moisture in the event of accidental chemical spillage offering the user much-needed protection in the workplace.

This garment consists of the following:

Jacket features:

- Collared jacket.
- Concealed aluminium zip closure.
- 2 Open laid on waist pockets and 1 left breast pocket with a V flap, concealed metal press stud closure with pen division and a Dromex® sidewinder.
- Seams are triple needle top stitched and stress points are re-enforced with bartacks for added durability.

Pants features:

- A concealed aluminium zip with metal button closure at waist.
- Two fronts swing pockets and a rear open mitred pocket with Dromex® sidewinder.
- Seams are triple needle top stitched and stress points are bartacked for added durability.
- Inner elasticated waist for optimum fit and flexibility with 5 belt loops.

This garment is suitable for use in general work environments such as logistics, warehousing, chemical, cleaning, brewing industries, janitorial, and general-purpose applications.

Special Instructions

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection. These poly cotton garments are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. Not for use against heat and flame hazards. The information contained herein is intended to assist the wearer in the selection of personal protective equipment. Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the garment suitability for the intended use. This garment should be thoroughly inspected before use to ensure no damage is present.

Specifications

Fabric composition: 80% Polyester 20% Cotton.
Mass: 200gsm.

Packaging, Storage & Obsolescence

Dromex® DW-ACID are packed in individual polybags and sold as 10 units per carton.

Should there be visible damage such as tears, it is recommended to replace the garment immediately.

Cleaning & Maintenance

- The following suggestions will help keep your garment neat and safe:
- Polycotton garments can be cleaned by home cleaning or commercial laundering provided all the recommended conditions and settings are adhered to.
- Should home procedures not remove contaminants, then dry cleaning is recommended.
- Our recommended cleaning for these garments is as follows:
 - Pre-treat greasy stains and wash the garment in warm water with a light cleaning solvent.
 - Do not use Hypochlorite bleach or detergents containing Hypochlorite bleach.
 - Chlorine bleach may cause fading and reduce fabric strength.
 - Do not tumble dry garments.
 - Thoroughly rinse the garment to remove any wetting agents.
 - Iron the garment on low heat.
 - When using commercial laundry aids, be sure to read and carefully follow the manufacturer's instructions.

- Note: Acid resistant garments when wetted with an acid and is allowed to dry or stand in its wetted state for a long period. However it will destroy the fabric and holes will become visible as after each wash the holes would fray wider. Should acids wet the garment, it should be washed and neutralised as soon as practically possible. The chemical used in the acid finish is a Fluorocarbon and is permanent therefore should not lose its effect after 50 washes.
