NEOGRIP 90005 Durable Safety Boot

RECOMMENDED ENVIRONMENT:

This shoe has been engineered to provide the wearer with protection in an array of harsh conditions. This shoe has found popularity amongst contract workers and those on a budget.

MATERIALS:

Upper:

- Cut from 2.0mm-2.2mm Full Grain Barton Print Water Buffalo Hides
- Bellows tongue from a soft split of either Bovine or water Buffalo Leather to prevent debris from entering the shoe
- Reflective safety tab on the rear for enhanced visibility at night
- Braided lace from polyester yarn and central core for additional strength

Lining:

- The quarter lining is from an industrial quality ferrabelle non-woven material
- The vamp lining is from a hi-tech needle-fi bre blend with excellent perspiration absorbency and treated with *Ultra-Fresh to impart hygienic and anti-bacterial properties to the material

In-Sock & Top-Sock:

- The in-sock is from an anti-static non-woven material
- The Energiser top sock is from a combination of polyester and wool, with excellent perspiration absorbency
- The top sock has been treated with *Ultra-Fresh to impart hygienic and anti-bacterial properties to the material

Sole:

- The sole is from Double Density PU/PU
- The midsole is from a low density flexible Polyurethane with a shore hardness of 0.40 & 0.45
- The outer sole is from Polyurethane with a shore hardness of 0.64 & 0.65
- A shank reinforcement is molded into the midsole for additional arch support
- The sole can withstand temperatures up to 95°C radiant and direct heat
- If required, the shoe is available with a steel midsole - 90705 (black only)
- The shoe is anti-static

Toe Cap:

- Steel toe cap
- Can withstand an impact load of 200 joules
- If required, the shoe is available without a steel toe cap - 90505 (black only)

The Neogrip shoe has been tested to comply with SANS/ISO 20345 specifications and carries the SANS/ISO 20345 certified mark.

This product is manufactured in South Africa by BBF Safety Group(PTY) Ltd. in an ISO 9001 accredited factory.
