

DISPOSABLE EAR PLUGS DR030

DR-030

Description

The Dromex® DR030 high visibility, soft pliable, disposable ear plugs, made of PU (Polyurethane) foam, designed with optimum protection and comfort for the ear canal offering the highest level of protection against noise. Expands to fit the ear canal more comfortably increasing overall protection.

These are easy to insert, durable, lightweight, non-toxic, non-irritating, waterproof and easy to carry ear plugs. The DR030 is comfortable for long-term wear in hot and humid work areas.

Available in an ear plug dispenser option, Dromex part number DR030 - DISP that is wall mountable and can be placed on a surface, makes hearing protection easily accessible to all staff and visitors. The ear plug dispenser also keeps earplugs hygienic.

Suitable for use in environments such as machining, grinding, steel cutting and woodwork.

Special Instructions

- Do not share ear plugs as ears can be exposed to ear infections.
- Ear plugs should be worn properly at all times in noisy surroundings.
- The ear plugs should be fitted, adjusted and maintained in accordance with the instructions provided in the packaging. If the recommendations are not adhered to, the protection afforded by the ear plugs will be severely impaired.
- Ear plugs may be adversely affected by certain chemical substances; avoid the use of agents (i.e. solvents and other disinfectants) that are known to be harmful to the wearer and/or the ear plug.
- Regularly inspect for tears or cracks and replace if service ability is suspected to be affected.
- Sounds above 85dB are harmful to the ears.

Compliance & Conformity

Materials

None of the materials used in the manufacture of these products are known to adversely affect the hygiene or health.

Fitting your Reusable Ear Plugs

1

With clean hands, roll (don't squeeze) the ear plug between your thumb and first 2 fingers until the diameter of the plug is as small as possible.

2

Reach over your head with the opposite hand and pull the top of your ear to open the ear canal.

3

While you are holding the ear open, quickly push the rolled end of the plug unto your ear as far as possible. Keep your finger on the end of the plug for about 10 seconds until the plug expands to seal the ear.

4

Here is the disposable ear plug properly positioned in the ear canal.

Disposal

All industrial waste should be disposed of correctly as per local regulations and good disposal practice. Hearing protective devices should be disposed of considering the hazardous substances they were used for. Please consider recycling.
