

## INSOLE

**DF-INSOLE**

### Description

The Dromex® DF-Insole, is a removeable insole designed for ultimate comfort for all day wear. Made from a durable double-density construction combining closed-cell polyurethane and a memory foam layer, the insole provides superior cushioning and shock absorption while reducing pressure on the foot.

These insoles feature the following:

- They are full length anatomical insoles, designed for full foot contact and won't slip.
- They are unisex and are available in various sizes.
- They are washable and re-usable.
- The arch support and cupped heel design, aids in easing arch and heel pain and heel stability.
- The construction is extremely soft.
- They consist of Antistatic thread.
- The synthetic top cloth fabric is breathable which absorbs sweat and aids in odor absorption. It also prevents blisters.
- The top cloth is not color coated preventing color fastness.

These insoles are suitable for use in industrial work shoes and boots, casual footwear and sneakers.

### Special Instructions

- Safety footwear shall only be used with the insole in place.
- None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer.
- The manufacturer is examined under the system for ensuring quality of production by means of monitoring and inspection.
- The information contained herein is intended to assist the wearer in the selection of personal protective equipment.
- Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the insoles suitability for the intended use.
